## Line breaks are missing in realtime stream

LegalCraft · Monday, July 30th, 2012

The root cause for this issue is missing timestamps from Cast CATalyst or from Total Eclipse and entire realtime text appears in the same line. Please enable timestamps while sending the feed to Courtroom Server. If it is not possible, follow these steps to fix the problem:

- Close Courtroom Server
- Open server.props file from Courtroom Server installation folder using Notepad (by default C:\Program Files\LegalCraft\Riverlex Courtroom Server)
- At the end of the file, add the following line:

```
server.isTimestampExists=false
```

- Save and close the file

Run Courtroom Server and everything will be fine.
