Getting MSI for Transcend

KVRN Kiran · Friday, April 11th, 2014

If you have the installer executable (Transcend-3.7.2.15.exe), then you can get the MSI by using command prompt. Use the following steps (Transcend version 3.7 and above only):

Launch command prompt by running CMD.EXE

Move to the location of the Transcend setup file (ex: CD C:\Installations)

Run Transcend setup with the following command:

```
Transcend-3.7.2.15.exe /Extract
```

The above command extracts the Transcend MSI and all dependencies the a folder “Files”. It contains “LegalCraft Transcend.msi” which is the main Transcend installer.
