How to install Enterprise Server patch

KVRN Kiran · Thursday, November 30th, 2017

Follow these steps to uninstall Enterprise Server patch:

- * Close Enterprise Server
- * Launch command prompt as administrator
- * Go to Enterprise Server installation folder
- * Locate file with UnPatch{VersionNumer}.bat file
- * Run it

Choose Yes to proceed with patch uninstallation

Once the batch file terminates, run Enterprise Server as administrator.

Note: Never run the patch file from Windows Explorer.
